

Briefing to the DoDIIS User  
Conference  
Honolulu, Hawaii  
10 March 2004

# ***DoDIIS Trusted Workstation Secure Information Sharing***

**Sean Mills**  
Secure Systems Engineer

Trusted Computer  
Solutions, Inc.  
2350 Corporate Park Drive,  
Suite 500  
Herndon, VA 20171 USA  
+1.703.318.7134 (Phone)  
~~+1.703.318.5041 (Fax)~~

[www.tcs-sec.com](http://www.tcs-sec.com)

***"The Leader in Secure Information Sharing"***

# Agenda

- ▶ Trusted Computer Solutions Overview
- ▶ SecureOffice® Trusted Workstation™ History
- ▶ SecureOffice® Trusted Workstation™ in Operation
- ▶ TCO Analysis
- ▶ DoDIIS Trusted Workstation Demonstration

# Mission

**“Provide *higher assurance* e-security solutions to enable *secure information sharing*”**

*“Current security efforts suffer from the flawed assumption that adequate security can be provided in applications with the existing security mechanisms of mainstream operating systems. In reality, the need for secure operating systems is growing in today’s computing environment due to substantial increases in connectivity and data sharing.”*

**- National Security Agency, USA**

*“Decision-makers...shall first consider the procurement of commercially available products [COTS], services, and technologies ...to satisfy user requirements, and shall work together to modify requirements, whenever feasible, to facilitate such procurements. Market research and analysis shall be conducted to determine the...existing commercial technologies and products...prior to the commencement of a development effort.”*

**- DoDD 5000.1 (Defense Acquisition System),  
23 Oct 2000 (w/Change 1 of 4 Jan 2001)**

# Background

- ▶ Founded in 1994
- ▶ 10 years of sustained profitable growth
- ▶ High assurance e-security solution provider
  - Defense Department
  - Intelligence Community
  - Civilian Government Agencies
  - Fortune 500 companies
- ▶ Recognized leader in secure  
“Cross Domain Interoperability”

***A World Leader***

## Trusted Operating System Leadership

**Secure  
network design  
and implementation**

**"Turn-key"  
high assurance  
"secure information sharing"  
solutions**

**Security  
certification  
and  
accreditation**

**Network  
security  
assessments**

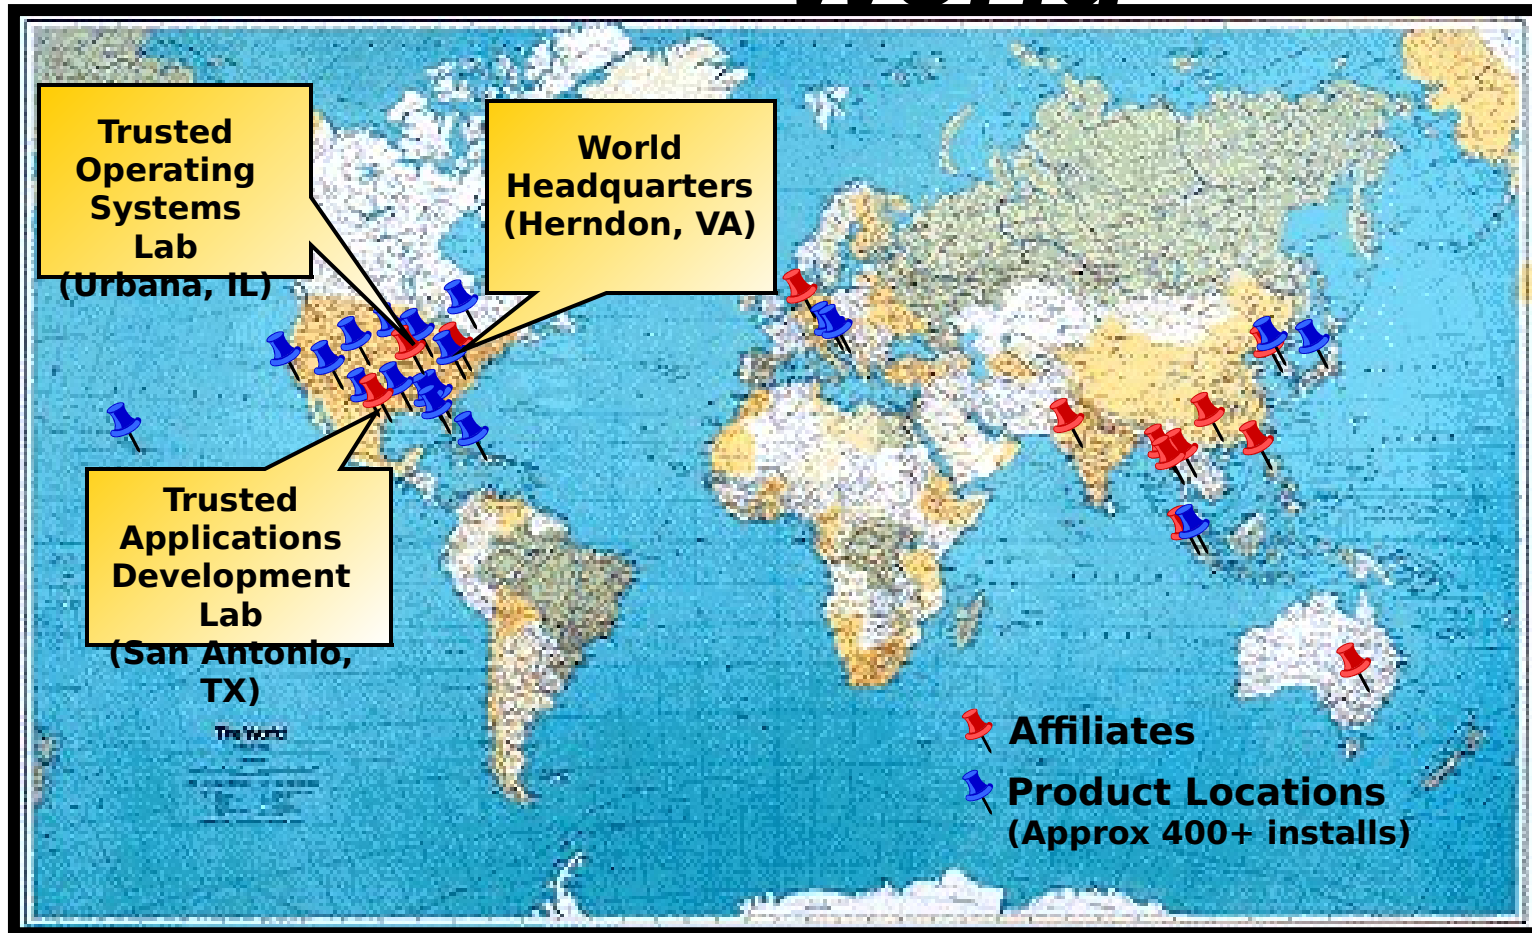

**ORACLE®  
Oracle Label Security expertise**

**Security training  
and awareness**

***World Class Technical Expertise***

# TCS "Around the World"

***A Global Presence***

## Office of Homeland Security "Coordination Responsibilities"

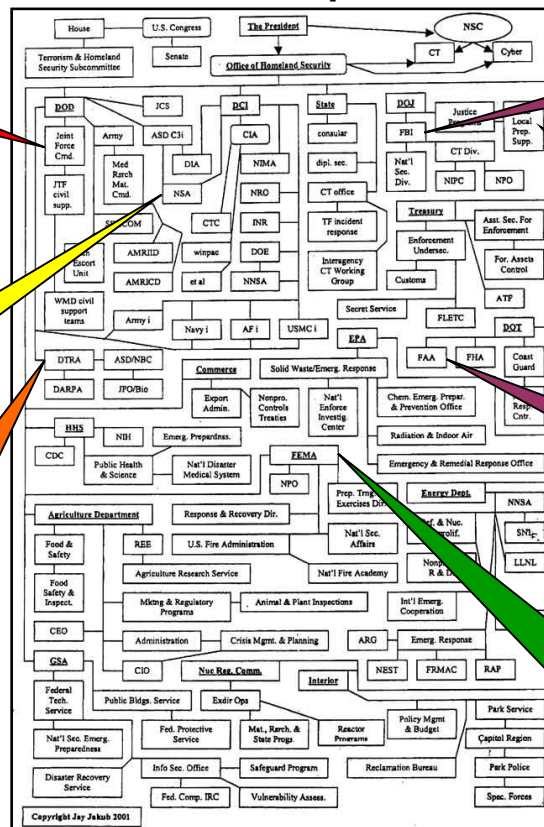

**Federal Bureau of  
Investigation  
(FBI Secret)**

**State/Local  
1st Responders  
(Unclassified)**

**Federal Aviation  
Administration  
(FAA Secret)**

**Federal Emergency  
Management Agency  
(FEMA SBU)**

## ***Secure Information Sharing (Federal, State & Local Agencies)***

# Behind the "Green Door"

*(Undisclosed US Government Facility)*

# Requirement Deconstructed

# The Problem

# Evolution of the Solution

**OpsIntel  
Workstation  
on  
1995**

**SOUTHCOM  
SOCOM**

**SecureOffice  
Fat Client  
1998**

**JICPAC  
Army ASAS  
TRANSCOM  
SPACECOM  
Scott AFB  
USFJ  
Eglin AFB**

**SecureOffice  
Thin Client  
2002**

**JICPAC  
DISA  
USS Mount Whitney  
JIATF East  
INSCOM  
NAVAIR**

**SecureOffice  
Enterprise  
2003**

**JICPAC  
DIAC**

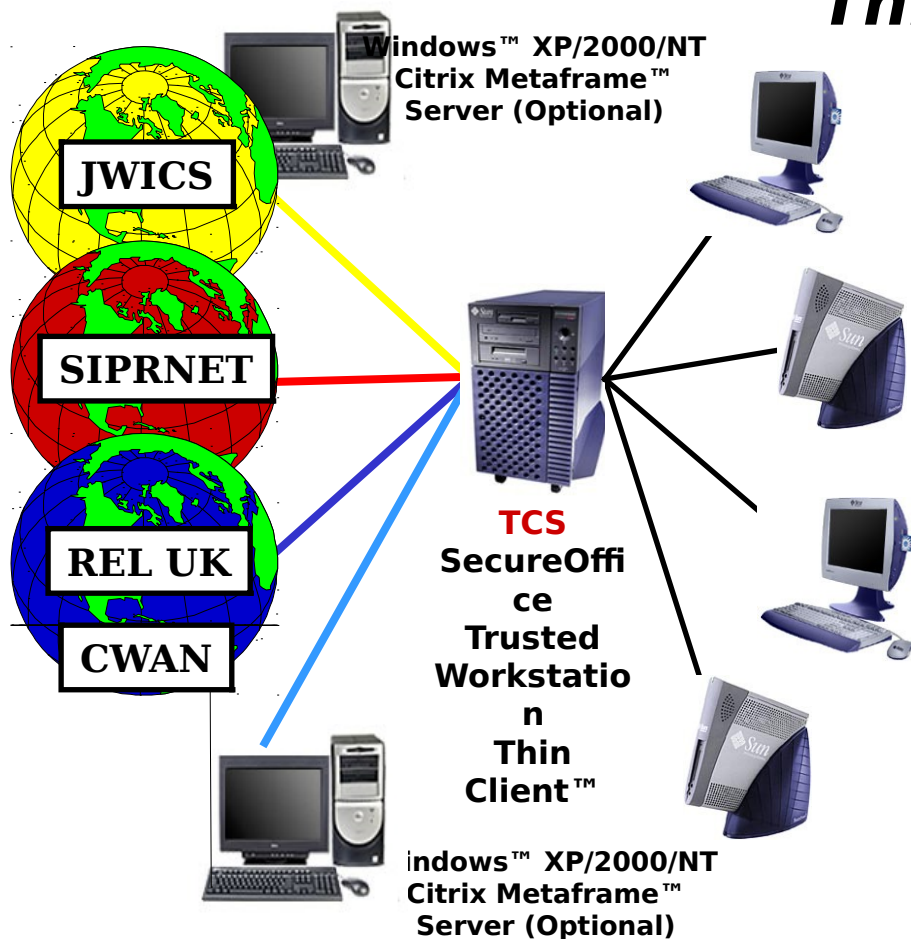

**DoDIIS  
Trusted Workstation  
(DTW)  
2004**

**AKA:**  
➤ OpsIntel Workstation (OIW)  
➤ Trusted Workstation (TWS)  
➤ ASAS TWS  
➤ Multi-Network Workstation (MNW)  
➤ N-Level Workstation  
➤ Multi-Level Thin Client (MLTC)

**Installed, Accredited & Operational**

# The DTW Solution

## SecureOffice® Trusted Workstation™ Thin Client

### Features

- ▣ Sun SunRay™ Appliances (Ultra Thin Clients) execute applications simultaneously (at multiple classification levels) via **TCS SecureOffice Trusted Workstation Thin Client™** :
- ▣ Full Microsoft Windows XP/2000/NT application and network functionality via Citrix, rdesktop, Tarantella, etc.
- ▣ E-mail, web browsing, and collaboration
- ▣ Sun StarOffice
- ▣ Sun SunForum
- ▣ Accredited **TCS** Trusted Relabeler™
- ▣ Simultaneous access to resources and legacy servers on multiple classified networks
- ▣ DIA accredited and fielded operationally

# SecureOffice Trusted Workstation Overview

**Site Specific Configuration**

**SecureOffice Trusted Workstation Product**

# Ease of Installation/Administration

**Installation Guide  
based on Security  
and Operational  
Requirements**

**SecureOffice Installation Script  
requiring minimal operator input**

**TCS GUI-based Administrative  
Tools**

**Security  
Enhancements  
During  
Installation:**

**High Security Configuration**

**Accreditation Level Definition  
MLS Remote Host Database  
MLS DNS**

**IP Filter Firewall  
Enabled  
Enforce Principle of  
Least Privilege on all  
actions  
Modification of  
Applications for a  
Multi-Level  
Environment (SunRay  
Session Server,  
SunForum, sendmail,  
etc)  
Audit Management**

**Optional Installation Parameter  
Enhances Security Lockdown  
Minimizes User Application Access  
Strict Administrative Privilege Control**

**MLS Gateway Routers  
IP Filter  
Audit Reduction  
Backup/Recovery Utilities  
Virus Definition List Update  
Trusted File Relabeler  
Administration  
SunRay Session Server  
Configuration  
Citrix ICA Client Configuration  
NIS+ Configuration  
NFS Configuration**

**Ease of  
Installation/Administration**

**Multi-Level Network  
Connection**

**Site-specific Label Encodings  
Definition File(s)**

**Jumpstart Everything**

# ***Enhanced Security***

## **Network Hardening**

**Disable Unneeded Services  
IP Packet Filter Enforcement  
(Deny all, Allow specific)**

## **User Configuration Control**

**User Privilege Bracketing  
Minimization of User Privileges  
No Terminal Access for Users  
ACL Enforcement on administrative tools**

**MS Windows  
Lockdowns**

**Accredited  
Configuration**

**Smart Card User  
Registration  
Two-Factor  
Authentication**

**Multi-Level Network  
Connection**

# Enhanced Operator Functionality

## Multi-Level Aware Applications

StarOffice  
Sendmail  
Printing  
SunForum  
Netscape  
Imagery Applications  
Multi-Level Launch for all Apps

Standard Drag and Drop  
Point and Click  
Interface

## Trusted File Relabeler

Two-person Review  
Role-based Access Control  
File Type Policy  
Virus Scan  
Dirty Word Search  
Clean Word Exclusion  
Native Format View  
Strict Auditing  
Site Security Policy  
Enforcement  
Workflow Enforcement

Integrated  
Windows  
Access

Citrix  
rdesktop  
Tarantella  
WinConnectS

**Enhanced Functionality**

**Enhanced Security**

**Ease of  
Installation/Administration**

Single Click  
Application Access

**Multi-Level Network  
Connection**

# *Ease of Use*

**GUI-fied  
Administration Tools**

**Unix to Windows  
Drive Mapping**

**Common Desktop Environment  
Application Access**

**Multi-Level Application  
Execution**

**Online Backup  
Utility**

**Enable  
Desktop Reduction  
Virtual Workspaces**

**Ease of Use**  
**Enhanced Functionality**

**Audit Review  
And Backup  
Utility**

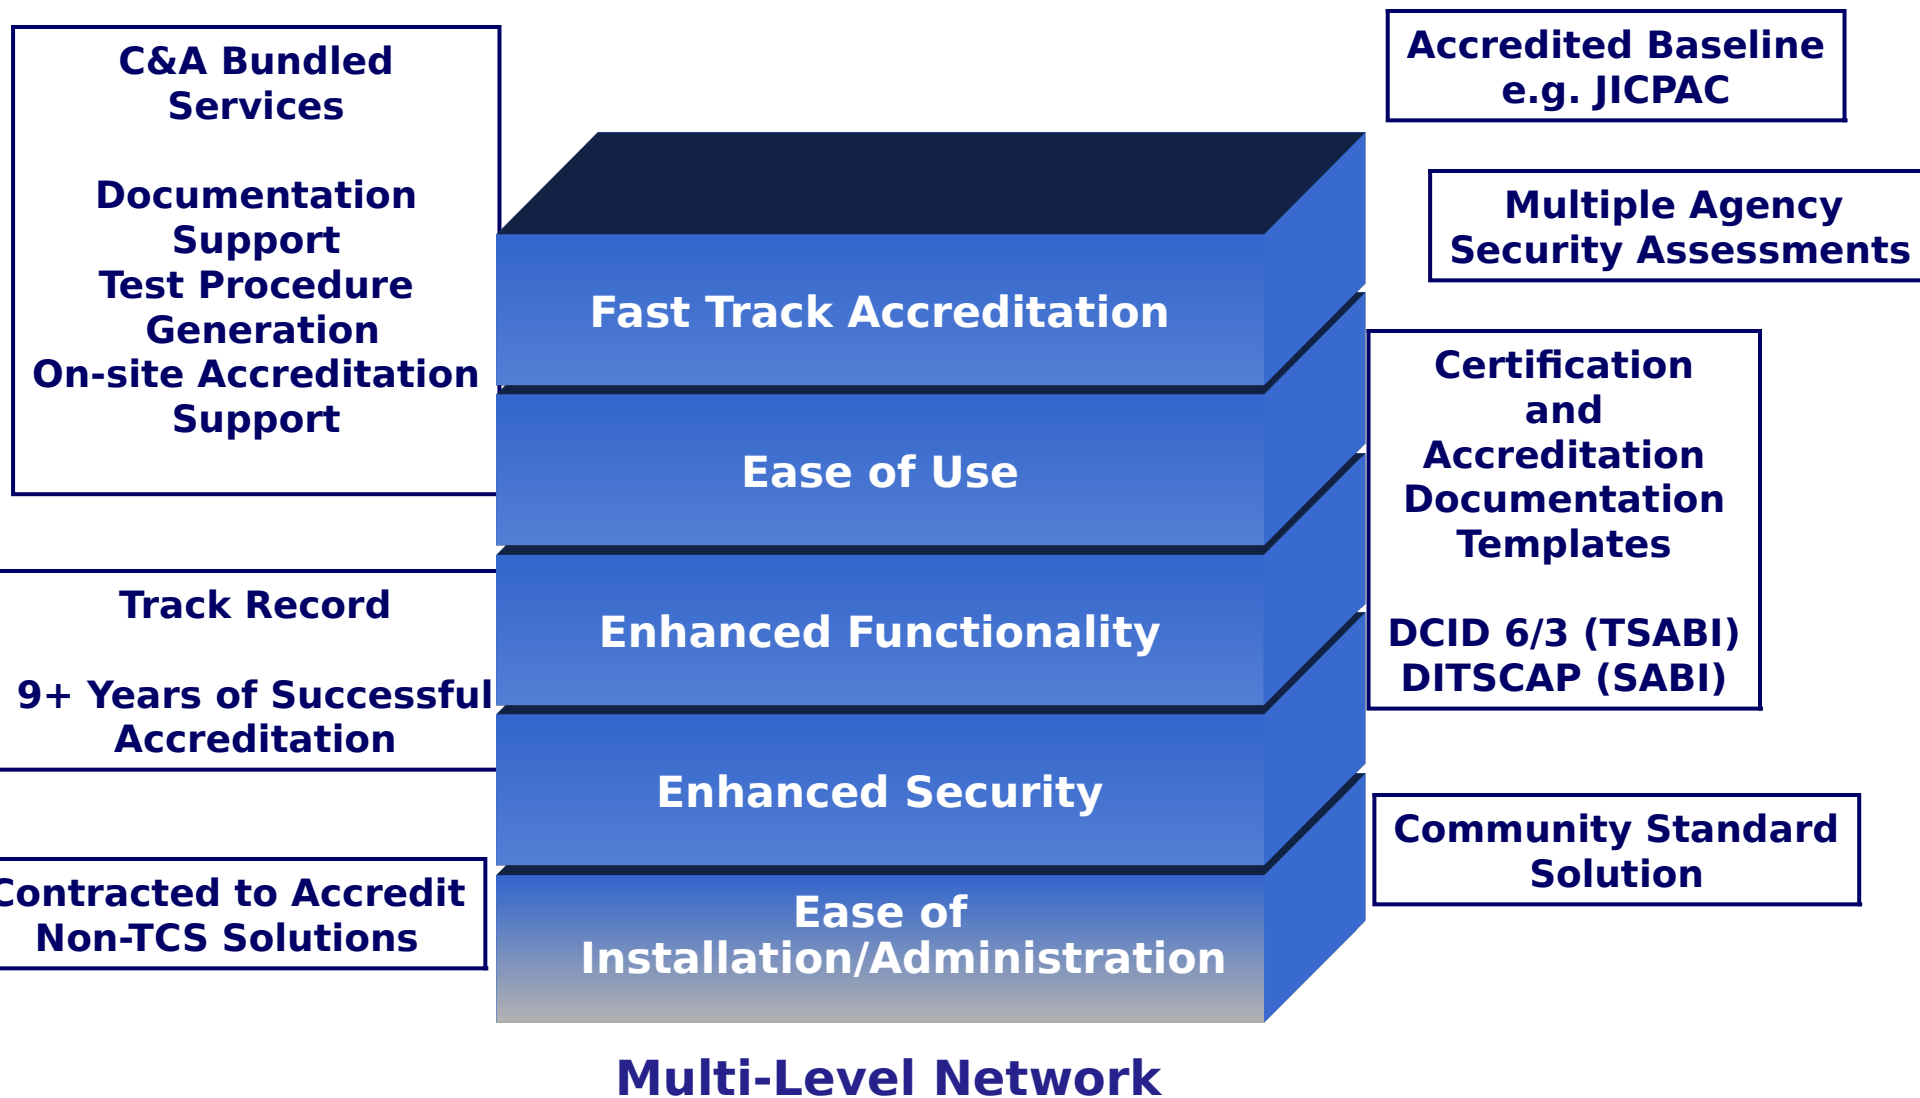

**Multi-Level File  
Sharing  
via  
Trusted File Relabeler**

**Enhanced Security**  
**Ease of  
Installation/Administration**

**Single Point  
Windows Access**

**Multi-Level Network  
Connection**

# Fast Track Accreditation

# SecureOffice Trusted Workstation Overview

Trusted Solaris Operating System

**Multi-Level Network  
Connection**

- ▶ Substantial Reduction in Workstation Cost
- ▶ Network Infrastructure Cost Decreased
- ▶ Reduction in Maintenance Cost
- ▶ Reduction in Network/User Expansion Cost
- ▶ Simplified Exercise Support
- ▶ ‘Apples to Apples’ vice ‘Apples to Oranges’
  - Per Seat Per Network
  - Hardware Configuration Options (i.e.- Flat Panel Display)

# SecureOffice License Costs\*

<b>SecureOffice Component</b>	<b>Unit Cost</b>
SecureOffice™ Thin Client Server Software License (Up to 4 CPU Enterprise Server) (Up to 3 Networks)	\$30,223.69
SecureOffice™ Thin Client Server Software License, Each Additional 1-4 CPUs	\$13,274.56
SecureOffice™ Thin Client Server Software License, Each Additional Network	\$ 9,848.87
Maintenance for SecureOffice™ Thin Client Server (Enterprise Server)(One Year)	\$ 6,044.74
SecureOffice™ Thin Client Server Client License, per seat (One Year, Includes Maintenance)	\$ 249.87

\* Excerpted from TCS GSA Schedule

# SecureOffice TCO with Citrix Component

Enter projected number of seats: 1,500  
Enter number of connected networks: 4

**Your TCS Cost Savings: \$ 11,242,995.96**  
**Your TCS Cost Savings per Seat per Network: \$ 1,873.83**

## ESTIMATED TCS SOLUTION - SOFTWARE COSTS

### Estimated TCS Licensing

Annual Costs \$ 557,550.00  
Total TCS Software Cost \$ 1,476,423.74

Estimated Citrix Licensing \$ 552,543.00

Estimated TCS Software Cost \$ 2,028,966.74  
Estimated TCS Software Cost per Seat \$ 1,352.64  
Estimated Cost per Seat per Network \$ 338.16

## ESTIMATED TCS SOLUTION - HARDWARE COSTS

SecureOffice Server \$ 1,040,465.10  
Thin Client Appliances \$ 571,515.00  
Citrix Server \$ 24,753.20

Estimated Hardware Cost \$ 1,636,733.30  
Estimated Hardware Cost per Seat \$ 1,091.16  
Estimated Cost per Seat per Network \$ 272.79

Estimated Setup Cost \$ 3,665,700.04  
Estimated Setup Cost per Seat \$ 2,443.80  
Estimated Cost per Seat per Network \$ 610.95

## ESTIMATED PC SOLUTION - SOFTWARE COSTS

### Estimated PC-Based Solution Licensing

Annual Costs TBD  
Estimated PC Server Software Cost \$ 1,742,908.00

Estimated PC Client Licensing \$ 1,302,000.00

Estimated PC Software Cost \$ 3,044,908.00  
Estimated PC Software Cost per Seat \$ 2,029.94  
Estimated Cost per Seat per Network \$ 507.48

## ESTIMATED PC SOLUTION - HARDWARE COSTS

Baseline PC Server Cost \$ 2,227,788.00  
Baseline PC Client Cost \$ 9,636,000.00

Estimated PC Hardware Cost \$ 11,863,788.00  
Estimated PC Hardware Cost per Seat \$ 7,909.19  
Estimated PC Cost per Seat per Network \$ 1,977.30

Estimated PC Solution Setup \$ 14,908,696.00  
Estimated PC Solution Setup per Seat \$ 9,939.13  
Estimated PC Cost per Seat per Network \$ 2,484.78

# SecureOffice TCO without Citrix Component

Enter projected number of seats: **1,500**  
Enter number of connected networks: **4**

**Your TCS Cost Savings: \$ 11,883,952.16**  
**Your TCS Cost Savings per Seat per Network: \$ 1,980.66**

## ESTIMATED TCS SOLUTION - SOFTWARE COSTS

Annual Costs \$ **557,550.00**  
Total TCS Software Cost \$ **1,476,423.74**

Estimated TCS Software Cost \$ **1,476,423.74**  
Estimated TCS Software Cost per Seat \$ **984.28**  
Estimated Cost per Seat per Network \$ **246.07**

## ESTIMATED TCS SOLUTION - HARDWARE COSTS

SecureOffice Server \$ **1,040,465.10**  
Thin Client Appliances \$ **507,855.00**

Estimated Hardware Cost \$ **1,548,320.10**  
Estimated Hardware Cost per Seat \$ **1,032.21**  
Estimated Cost per Seat per Network \$ **258.05**

Estimated Setup Cost \$ **3,024,743.84**  
Estimated Setup Cost per Seat \$ **2,016.50**  
Estimated Cost per Seat per Network \$ **504.12**

## ESTIMATED PC SOLUTION - SOFTWARE COSTS

Annual Costs **TBD**  
Estimated PC Server Software Cost \$ **1,742,908.00**

Estimated PC Software Cost \$ **3,044,908.00**  
Estimated PC Software Cost per Seat \$ **2,029.94**  
Estimated Cost per Seat per Network \$ **507.48**

## ESTIMATED PC SOLUTION - HARDWARE COSTS

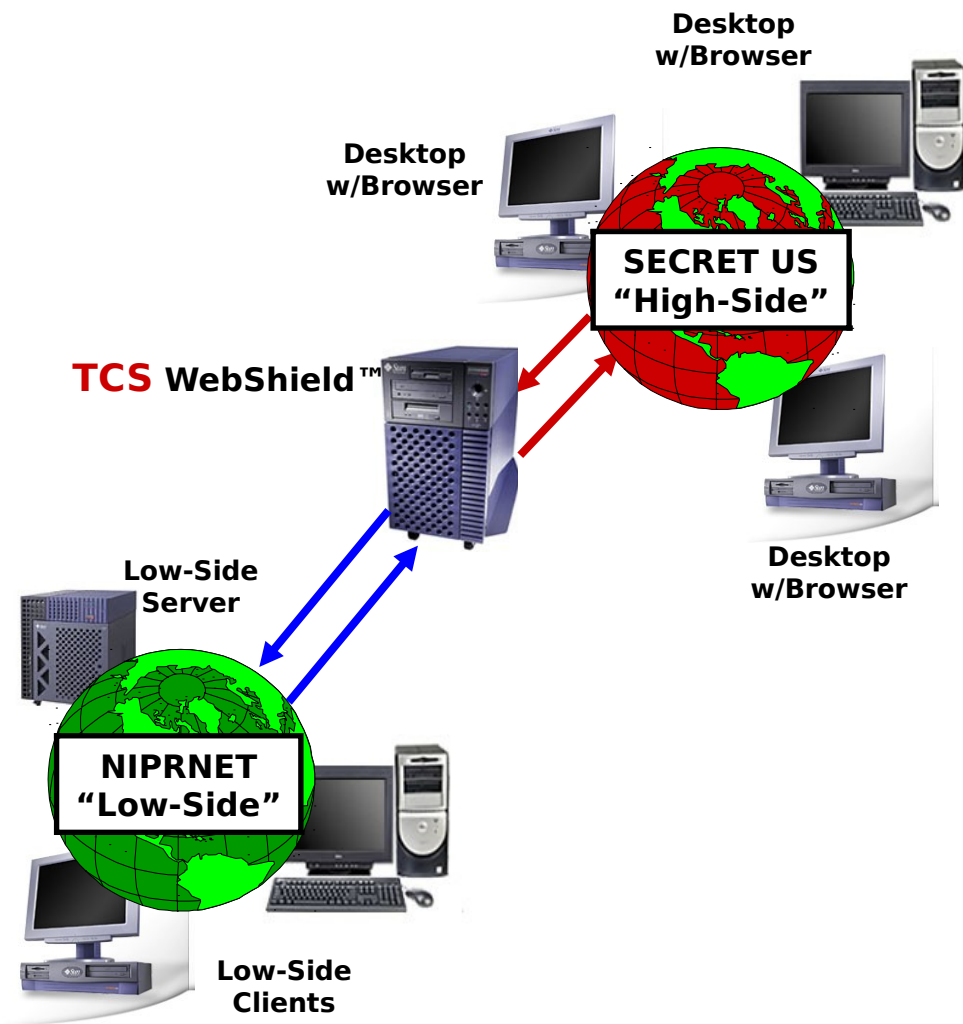

Baseline PC Server Cost \$ **2,227,788.00**  
Baseline PC Client Cost \$ **9,636,000.00**

Estimated PC Hardware Cost \$ **11,863,788.00**  
Estimated PC Hardware Cost per Seat \$ **7,909.19**  
Estimated PC Cost per Seat per Network \$ **1,977.30**

Estimated PC Solution Setup \$ **14,908,696.00**  
Estimated PC Solution Setup per Seat \$ **9,939.13**  
Estimated PC Cost per Seat per Network \$ **2,484.78**

## ▶ TCS WebShield

- High-to-Low Browse Down Technology
- Accredited by DIA in TSABI Configuration
- Operational in Multiple Lab Environments

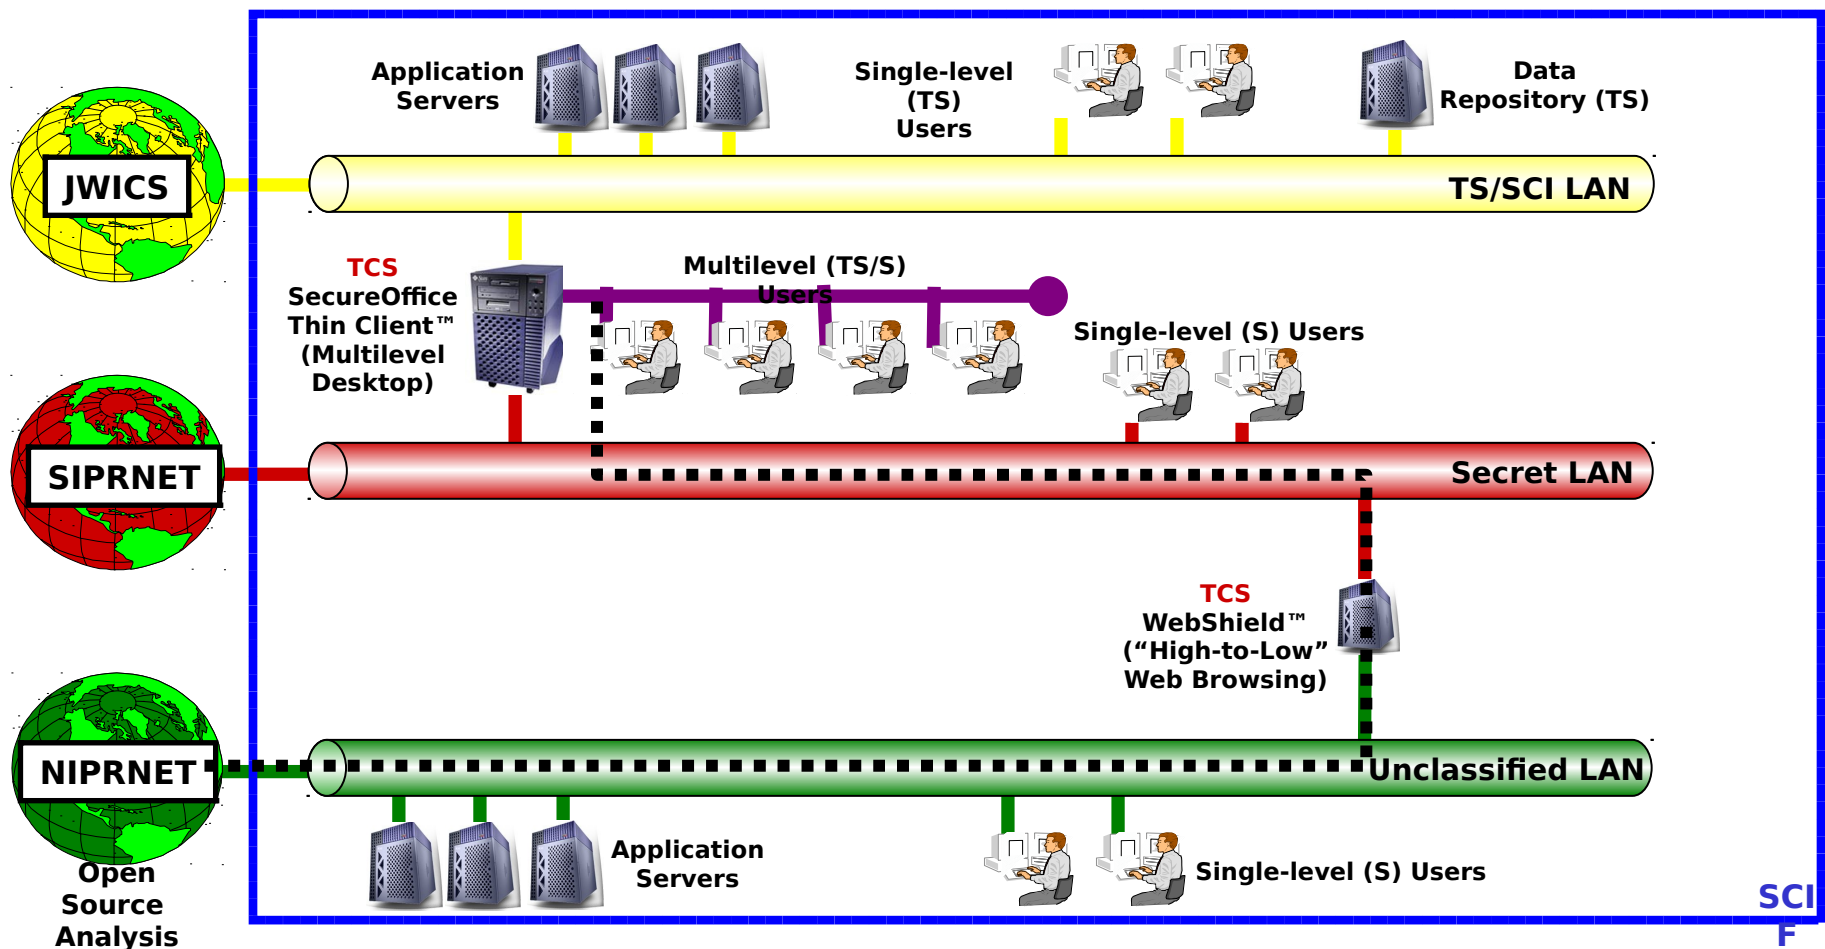

## Features

- ▢ Using standard browser, browse down from one classified network to web servers on a lower level network
- ▢ Downgrade "Request" (www.cwan\_server.mil) then upgrade of "Response" (web page)
- ▢ Site configurable HTTP request filtering, dirty word search, forms filtering and downgrade
- ▢ Configurable response filtering for active content: Java Applets, Java Scripts, Active X, plus other MIME types
- ▢ Virus scanning
- ▢ Strong authentication using DoD X.509 digital certificate, IP address, or username/password (optional plug-in)

▢ DIA accredited
